EDUCATION

Future University In Egypt

2021-2025

Undergraduate

AWARDS & CERTIFICATIONS

- Certification on Data analysis, AI and Machine Learning training

SKILLS

- Programming & Analytics: Python (pandas, NumPy, Matplotlib), SQL(MYSQL, SSMS), Data Warehouse.
- Data Visualization: Tableau, Power BI, Excel, Python
- Data Handling: Data Cleaning, Manipulation ,ETL.
- Soft Skills: Problem-Solving, Teamwork ,Communication.
- Organization and time management skills

PROFILE

With a solid background in analytics, data visualization, and programming, I aspire to be a data analyst. Being proficient in SQL (MySQL, SSMS), Python (pandas, NumPy, Matplotlib), and ETL procedures, I am excellent at turning unstructured data into insightful knowledge. I can produce dynamic dashboards and eye-catching visual representations of data thanks to my proficiency in Tableau, Power BI, and Excel. My proficiency in statistical analysis, data cleansing, and modification guarantees precision and effectiveness in data-driven decision-making. I am keen to use my analytical skills in practical situations and advance in the data analytics industry.

WORK EXPERIENCE

I have applied my knowledge and skills in many projects which is related to data analytics and visualization
